PROFESSIONAL SUMMARY

Learning experience designer with a UX and interaction design foundation and 5+ years across eLearning development, localization, healthcare training, higher education, and AI SaaS client education. I turn complex products, workflows, and decisions into practice-based learning and self-serve support, and build AI-assisted workflows with human review to deliver it faster. Bilingual in English and Mandarin.

PROFESSIONAL EXPERIENCE

Satellica | Operations Manager — Client Education & Research Operations Jan 2026 – Present

- Built 4 human-in-the-loop Claude agent workflows (tracker setup, screening requests, tracker sync, NDA e-signatures) with review before every action, saving ~40% of weekly coordination time and completing 30 of 30 AI interviews before a client deadline
- Created 6 task-based help center guides with short step-by-step videos and ran Zoom onboarding for 5+ client teams, cutting routine how-to questions from 2–3 a day to 1 or fewer (~80%) across a 12-hour time difference
- Write bilingual product updates every 2–3 weeks for North American clients (Slack), Chinese clients (WeChat, Lark), and investors, translating founder and product input into audience-specific value
- Owned recruitment and participant operations for 6 qualitative studies for consumer-tech brands (350–500+ applicants each), including 14 in-home interviews in Los Angeles and San Francisco within 5 days
- Produced a 20-second product video, investor demo annotations, a LinkedIn style guide, and 15 LinkedIn and RedNote posts (5,688 LinkedIn impressions)

TransPerfect | E-Learning Localization Engineer May 2016 – Dec 2025
Freelance, project-based Sep 2019 – Dec 2025
Full-time May 2016 – Aug 2019

- Localized and quality-tested eLearning courses for global enterprise clients in Western European and East Asian languages using Articulate Storyline, Adobe Captivate, InDesign, Photoshop, and Illustrator, adapting layouts, media, and interactions while preserving instructional intent
- Analyzed courses for localization risks and coordinated with global teams to resolve layout, trigger, font-encoding, and data-integrity issues; performed functional QA and LMS compatibility testing before client delivery

Commonwealth Care Alliance | E-Learning Specialist Oct 2015 – May 2016

- Designed interactive clinical education and compliance modules in Storyline for 350+ RNs, LPNs, and nurse practitioners in home-based senior care, reducing learner seat time by 30% versus previous modules (LMS time tracking)
- Partnered with a physician SME to turn curriculum and recorded lectures into SCORM modules on HealthStream; managed multimedia production, LMS testing, and completion tracking, and refined each launch through learner surveys and focus groups

Northeastern University | E-Learning Designer Jul 2015 – Oct 2015

- Rebuilt a slide-based Title IX workplace-harassment course as interactive eLearning with the Office of Diversity, using student and faculty focus groups to shape navigation and content, raising completion by 20% on a platform serving 9,000+ users

SELECTED PROJECTS

Ask First, Log It Right — Sales Discovery & HubSpot CRM Enablement (concept project): Branching Storyline call simulation, HubSpot walkthrough video, two PDF job aids, and a 30-day reinforcement and evaluation plan for new Account Executives; course site built in HTML/CSS/JS on Cloudflare Pages

AI Tools for Workplace Productivity (Harvard Extension capstone): One-week Canvas course culminating in a Storyline AI ethics investigation lab where learners weigh evidence across emails and team chats and make a defensible recommendation

EDUCATION & CREDENTIALS

Harvard Extension School — Graduate Certificate, Learning Design and Technology Sep 2023 – Jan 2026

Association for Talent Development (ATD) — E-Learning Instructional Design Certificate Sep 2023

Northeastern University — M.S. Digital Media, Interactive Design Sep 2013 – Jun 2015
